

Sensor-switched outdoor floodlight

The Spot range.

1 design. 4 installation areas.

For perfect light around the home.

A spot range with an uncompromisingly elegant design for illuminating modern architecture. For facades, driveways, access and garden paths, or the elegant illumination of dark garden areas.

All products are available in a Bluetooth Connect version for fast, wireless interconnection and configuration via the free app.

Spot ONE

Spot DUO

Spot GARDEN

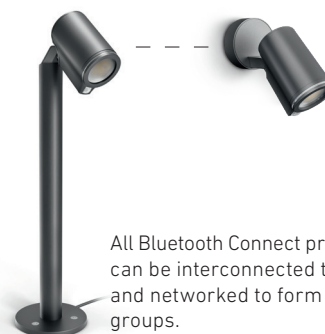

Spot WAY

Bluetooth 4.0 for fast and energy-saving connections. The lights are commissioned, configured, and interconnected via app.

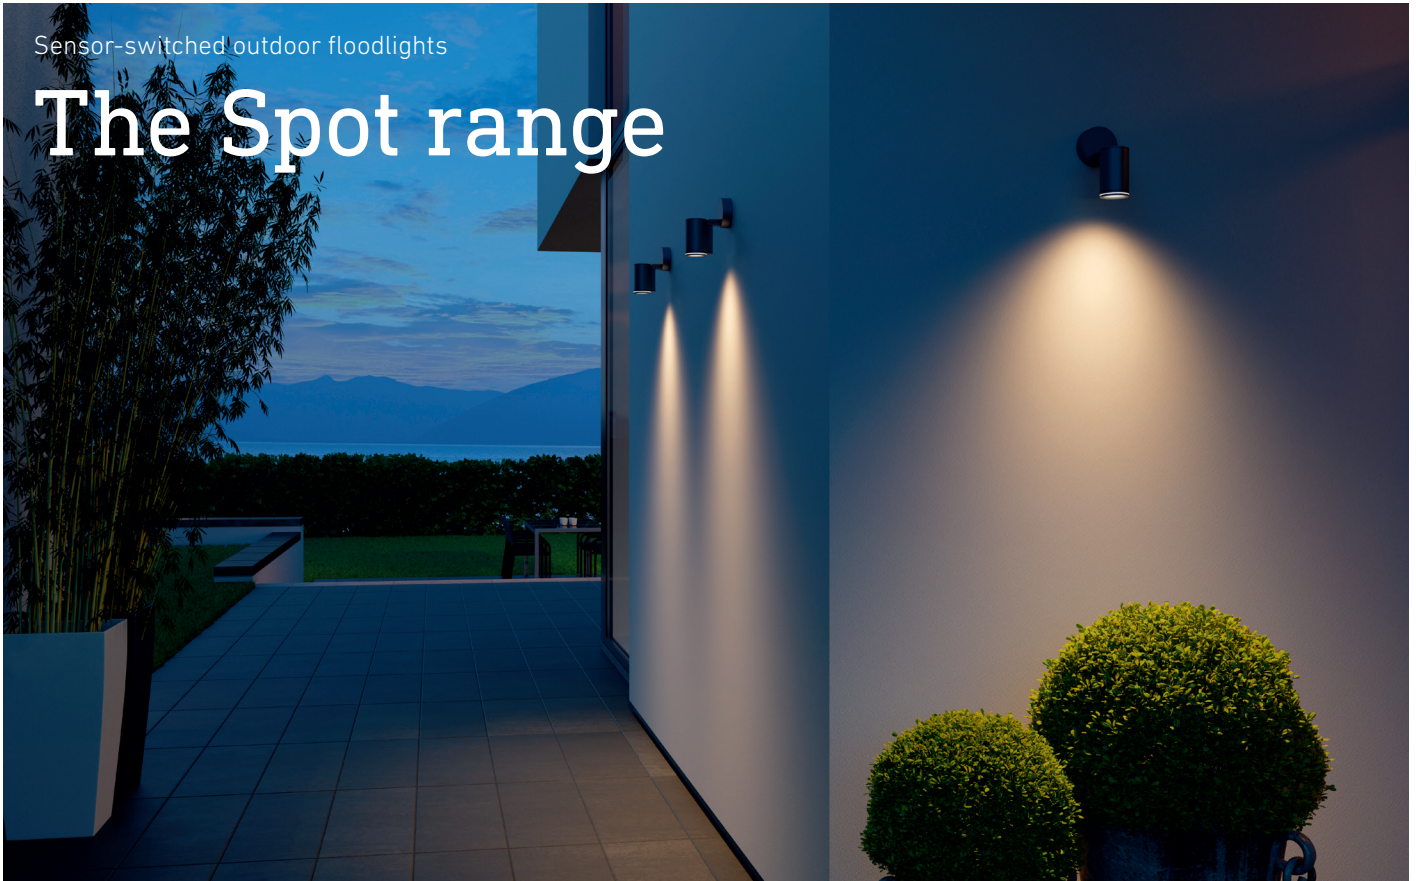

The lights are interconnected quickly and easily via Bluetooth, requiring no additional wiring.

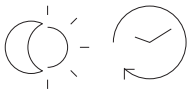

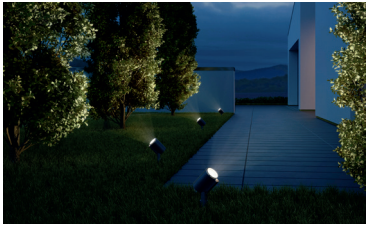

All Bluetooth Connect products can be interconnected together and networked to form lighting groups.
